CLEARING TRACT
FOR FORD PLANTLaying Materials on Ground for
Plant That Will Employ
300 Men

THAT there is to be no delay in the construction of the Ford Motor Company's proposed assembling plant, a site for which recently was purchased at a cost of \$48,000, is evident from the activities of workmen now engaged in clearing the tract, located on the south side of Main street in the first block east of the Frisco track.

Tenants have gotten out of three residences on the site and the buildings will be removed today. The three-story brick business structure at 925 W. 1st Main, occupied by the Alexander hotel, will not be razed at this time. Several great cottonwood trees that have made the locality a beauty spot 10 years past already have been chopped down, converted into cordwood and hauled away.

Yesterday a number of teamsters began the work of hauling brick, sand and other materials for the construction of the five-story assembling plant that is to cover almost half a block of ground and will give employment to about 300 skilled mechanics.

REGULATE ZINC TRADE

Importers and Customs Officials Get
Together to Correct Evils—So For
eign Value on Present Basis

WASHINGTON, Aug. 11.—Zinc importers and customs officials from St. Louis, Kansas City, Chicago and New York will confer at the treasury department Monday over methods of appraisement of zinc ores.

The sales contracts vary materially, leaving practically no real foreign market value, and the conference will seek an equitable basis of appraisement.

WALSH REPORT AUG. 23

Industrial Relations Commission 15
Days in Which to Compile Its Re-
port—To Be Complete Document

CHICAGO, Aug. 11.—The federal commission on industrial relations will submit one report to congress instead of three as previously reported. It was officially announced today.

The report, however, will incorporate the several opinions of members of the board. The nine commissioners have until August 23 to compile the report. Daily conferences will be held at the commission's headquarters here to expedite the task.

CHASE AN OPTIMIST

Believes Rose Line Will Build and
Says Oil and Crops Are Making for
Prosperity in Oklahoma

"We have great faith in the proposed electric line from Tulsa to Bartlesville, Nowata, Milam and Joplin which is being promoted by John R. Rose of Oklahoma City," was the comment of State Senator W. A. Chase of Nowata to a group of friends in the office of Secretary of State J. L. Lyon this morning. He said it was somewhat different from the "shorter line," a railway project that culminated in the grading of the proposed line from Chelsea to Caney, about 36 miles, and then was dropped.

Senator Chase said the recent ascensions in the price of oil have revived that drooping industry in the Bartlesville-Nowata district. This factor, he said, associated with a fine prospect for corn and the biggest hay crop in the history of that locality is causing business to boom in that section of the state.
